DETAILED ACTION

1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

2. Claims 19 and 20 are rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Takeuchi et al.

Takeuchi et al. discloses a semiconductor dynamic quantity sensor comprising a frame member 22, a movable electrode 161 and a fixed electrode 191 supported by the frame member. The only difference, if any, consists in providing opposing frame parts of approximately the same width. As shown in Fig. 2B, the opposing frame parts of frame member have approximately the same width, and, if not, would have suggested opposing frame parts of approximately the same width.

3. Claims 23 and 24 are rejected under 35 U.S.C. 103(a) as being unpatentable over Takeuchi et al. as applied to claims 19 and 20 above, and further in view of Sakai et al. (6,151,966).

The only difference between the claimed invention and the prior art consists in forming the opening 24 of Takeuchi et al. from a through hole in a semiconductor layer. Sakai et al. teaches that it is conventional in the prior art to form a semiconductor dynamic quantity sensor from a through hole in a semiconductor layer 19 in Fig. 23. Accordingly, merely to form the opening 24 of Takeuchi et al. from a through hole in a semiconductor layer would have been an obvious method of forming the opening in view of Fig. 23 of Sakai et al.

Art Unit: 2856

4. Applicant's arguments filed July 8, 2004 have been fully considered but are moot in view of the new ground(s) of rejection.

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to John E Chapman whose telephone number is (571) 272-2191. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Hezron Williams can be reached on (571) 272-2208. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
